

HEMANTH NAIDU LATCHIREDDI

+91 9110789563 ✦ hemanth.latchireddi@techmahindra.com

OBJECTIVE

Associate Software Engineer with 1.5 years of experience, specializing in SQL, Python, and Generative AI technologies. Skilled in utilizing cloud platforms like GCP to design and implement scalable, efficient solutions that contribute to the growth and success of the organization.

EDUCATION

Bachelor of Technology Godavari Institute of Engineering and Technology ,Rajahmundry	2019 - 2023
Class XII Narayana Junior College, Visakhapatnam	2017 - 2019
Class X Suresh High School, parvathipuram	20116 - 2017

EXPERIENCE

Associate Software Engineer Tech Mahindra, Bengaluru.	Aug 2023 - till date
---	----------------------

- Worked on a Generative AI project, contributing to the refinement of machine learning models by conducting thorough data analysis to identify patterns and trends.
- Utilized the Rouge Matrix for evaluating model performance in natural language generation tasks.
- Developed and deployed interactive dashboards using Looker Studio to visualize and monitor project metrics and performance.
- Implemented Web AR technologies to create immersive experiences by measuring real-world distances and placing 3D objects in virtual environments, enhancing user engagement.
- Collaborated closely with cross-functional teams, ensuring seamless integration of data engineering processes with machine learning and AR development.

SKILLS AND INTERESTS

Skills	Python SQL Genarative AI WEB AR
Platforms	Google Cloud Platform

DECLARATION

I hereby declare that the information given above is true to the best of my knowledge. I will make it my earnest endeavour to discharge competently and carefully the duties you may be pleased to entrust me.

Place : Benaghluru
